FURNACE**

**LEAD WITH TECHNOLOGY.
SUCCEED WITH SERVICE.**

HEAT TREAT LINES

Ammunition Components, Firearm Parts, Cutlery & Tools

Abbott Furnace Company's continuous belt process lines and furnaces are ideal for heat treating high volumes of ammunition and firearm parts as well as cutlery and tools. From load to unload, Abbott can provide the complete process line. Precise atmosphere and temperature control consistently deliver high quality uniform parts.

KEY CAPABILITIES:

- Multi-stage continuous process line.
- Reducing or Oxidizing atmospheres.
- Oil, atmosphere or air quench.
- Multi-zone heating with electric or gas.
- Temperatures up to 2900°F.
- Sophisticated, electronic monitoring & control.

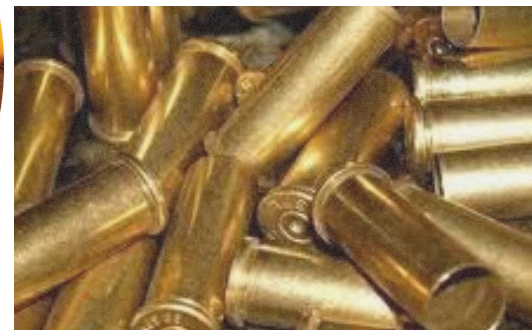

HEAT TREAT

APPLICATIONS

**ANNEALING
CARBURIZING
HARDENING
TEMPERING
PICKLING**

EQUIPMENT

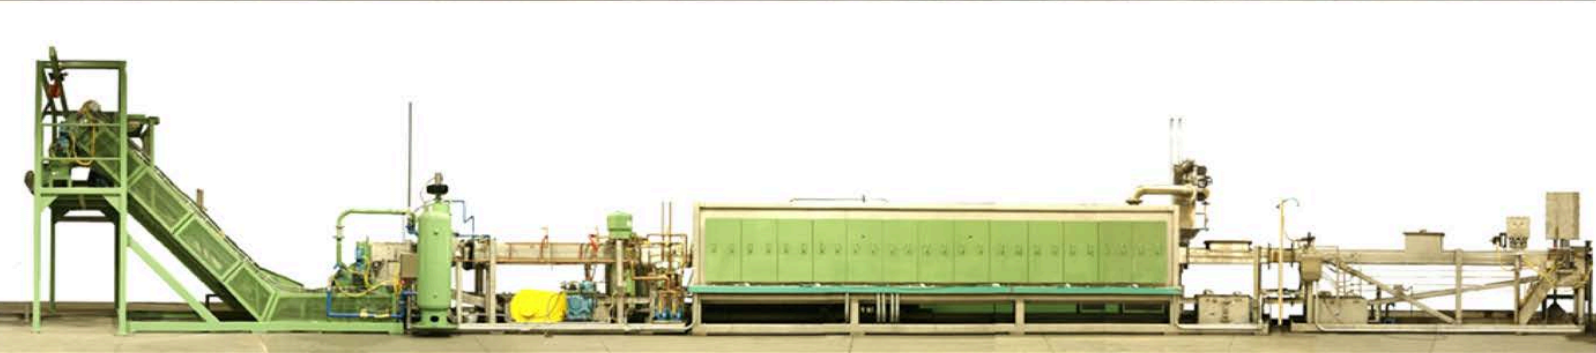

**FURNACES
LOADERS
FEEDERS
WEIGHING EQUIPMENT
WASHERS
DRYERS**
