

## WHY US?

Abbott Furnace Company has been designing, building, and installing industrial furnace systems for over 40 years. In that time, we've led the industry with innovative technologies that increase performance, improve efficiency, and allow reliable data tracking. Choosing one of our continuous belt furnaces is an investment that will enhance your operation, and choosing the S.M.A.R.T. system ensures compliance and efficiency.

# AIAG AND CQI-29 COMPLIANCE

## Maximize Furnace Efficiency and Simplify Compliance

### S.M.A.R.T. SYSTEM FEATURES AND BENEFITS

#### SELF-MONITORING

Automatically collect data on system performance and efficiency required to meet AIAG and CQI-29 standards.

#### ANALYSIS

Gain maximum visibility into device performance by using collected data to understand trends for temperature, belt speed, and other metrics.

#### REPORTING

S.M.A.R.T. automatically sends detailed reports to management and/or engineering and maintenance teams so you can meet AIAG and CQI-29 requirements.

### OUR OTHER SPECIALTY FURNACE PRODUCTS

- Quality Delube Processor (QDP)
- Nautilus – Soft Magnetic Composites Process
- Vulcan Delube System
- Vacuum Oil Impregnator With Spin & Oil Heating Systems
- VariCool Convective Cooling System
- Rotary Table Parts Accumulator
- Sampling Cart

**RELY ON ABBOTT** to gain visibility into the performance of your furnace and meet AIAG and CQI-29 heat treatment standards.
